

SKA news for Australian industry: 8 August 07

We are pleased to announce the following 3 events – all are free and open to interested parties.

Please ensure you RSVP to the organisers (and not to me!)

1. National Science Week, Perth – 6pm, Tuesday 21 August

Public Talk: The Square Kilometre Array – Developments and Opportunities

Professor Peter Hall, International Project Engineer for the Square Kilometre Array, and Adjunct Professor at Curtin University of Technology, will give a talk as part of National Science Week, aimed at a general audience.

See (1st) attached flyer for full details and RSVP information.

2. Australian SKA Pathfinder Industry Update, CSIRO Marsfield, Sydney – 3.45 – 5.30pm, Thursday 23 August

Industry Briefing: The Australian SKA Industry cluster consortium invites you to this event to provide an update from the ASKAP Project on Australian technologies and R&D opportunities.

Please see (2nd) attached document for invite/program.
Registration is Free but please RSVP to Janice Humphreys at Janice@globalinnovation.com.au Tel: 07.3831 1636 or Fax: 07: 3831 1531 by 20 August 2007.

3. WA SKA Industry Briefing, Technology Park, Perth – 9.45 – 11.45am, Thursday 23 August

Industry Briefing: This is an open invitation to attend a briefing hosted by DOIR for all interested industry stakeholders.

Please see (3rd) attached document for invite/overview and RSVP details.

4. WA SKA Industry Briefing, Geraldton – 3.00 – 5.00 pm, Friday 24 August

Industry Briefing: hosted by the Mid-West Development Commission (MWDC) at the Geraldton Universities Centre, for all interested (local) industry stakeholders. Please contact MWDC (Tel 08 9921 0702) directly for further information and the program/invite.

We look forward to seeing you at one or more of these events.
