

## **Does It Feel Good To Hurt Me**

I'm trapped by my foolish heart

You hit it with your poison dart.

You have me under your spell

You held me close then you put me through hell.

### *Refrain*

Does it feel good to hurt me

Knowing to my heart you hold the key.

Does it feel good to hurt me

Won't you please set me free.

We made the kind of love I thought would last,

But now I'm just someone from your past.

You took other women to your bed

Why weren't you true like you said.

### *Refrain*

You got me cryin for you,

Now you've walked away

You've got me cryin' for you,

How could you leave me this way.

### *Refrain*
