

Summer lovin

Summer lovin is all I know,
to have your arms around me
Summer Lovin never want to go,
Oh I need you can't you see.

Summer lovin young & sweet
when everything was fresh & new
Summer lovin a splendid treat
I just couldn't get enough of you

We danced on the beach all night long
Every moment together we would spend
We had our time & now its gone,
when summer loving meets a winters end.
