

SKA news for Australian Industry: 14 January 2009

1. Notice of Industry Briefing Sessions "ASKAP Infrastructure Plans & Opportunities" – Tuesday 3rd February (Sydney) & Friday 6th February (Perth)

The ASKAP [Industry Opportunities Register](#) describes several requirements related to the development of the Murchison Radio Observatory Site in Western Australia, including surveys, infrastructure design, site works and support, power generation, as well as power & fibre reticulation.

The ASKAP project will release Expressions of Interest, Requests for Tenders, or calls for quotations throughout 2009 for these services. CSIRO now invites interested parties to industry briefing sessions to provide background information of the project needs. Please note that attendance is not a pre-requisite to tender.

<u>Date</u>	<u>Place</u>
Tuesday 3 rd Fe	CSIRO ATNF, Pembroke Rd, Marsfield, Sydney.
Friday 6 th Feb	Technology Park Function Centre, 2 Brodie Hall Drive, Bentley, Perth.

Each (identical) briefing session will commence at 3:00pm and conclude around 5:00 pm with a Q&A session, followed by informal refreshments and networking. This is an open invite to all interested parties and there is no charge for attendance.

Please feel free to forward this email to any other interested parties.

We acknowledge the generous support of Horizon Power, one of our ASKAIC members, for the company's assistance in hosting the WA event.

For catering purposes, please RSVP to confirm your attendance at either session, stating your name, role and company name, to Vicki.Fraser@csiro.au by 23rd January 2009

Please ensure you refer to the Australian SKA Pathfinder Industry Opportunities Register (v2) as noted above for an overview of the scale and scope of the infrastructure plans.
