

Fringes!

Recording RCP into CoMo 1 (channels 1-4) and LCP into CoMo 2 (channels 5-8)

DBBC config from dbbc_config_file_v25aa.txt

The systemp temperature script has been bodged to measure X-band only with LCP masquerading as tsysS and Xband as tsysX - Good data from 2250 on....

Recording to PKS+0021/8000/1024
