

Noticed Cd had:

```
2016.081.14:52:17.01#antcn#Error: Cannot get monitor info from antenna
(8020002)
2016.081.14:52:17.01#antcn#Network I/O Timeout occurred on read/accept
errors since ~13:43 UT.
```

Restarting fs seems to have fixed it. Called JMc who says that data during this period should still be valid. Just that antenna information was not being passed to the fs on time.
