

Recording to cave-store:/data1

Tied array includes antennas 1,2,4 and 5. Reference is W104 (CA04). CA03 is out due to upgrade to 4cm receiver.

Antenna 1 was stowed and removed from the tied array at 03:40 for a cryo topup. This also caused ants 2,4,5 to be about 20 seconds late on source 1714-336 (scan 41).

Antenna 1 was back for 1613-586 (scan 42), but was only on source and added into the tied array at 03:51:47.
