

Changing filesystem to XFS

Once off (per recorder)

> apt-get update > apt-get install xfsprogs

Edit /etc/fstab

- Change ext3 to auto for appropriate disks (e.g. xraids)
- Add option `noatime`
- Optionally add option `logbufs=8` (does not seem to make much difference and not supported by ext3)

Copy new formatdisk.pl to /root/bin (for ATNF machines)

> formatdisk.pl /dev/sdXX
