Synthesis Imaging Workshop
Evaluation Sheet

To assist us in evaluating this workshop, and to aid the planning of the next workshop, your assistance in completing this form would be appreciated. Either place your completed questionnaire in the box in the lecture area after the workshop, or fax it to (02)67904090, or retrieve the electronic version from the web and e-mail it to synthesis@atnf.csiro.au.

Some questions ask for a numerical rating, with 10 being the highest score, and 1 the lowest.

Thanking you in advance,
The Workshop Organisers

---

1. (a) How would you rate your prior knowledge of synthesis imaging: _____
   (10=expert; 1=beginner)
   (b) Approximately how many times have you observed with an interferometer: _____
2. (a) What was the general quality of the lectures: _____
   (10=excellent; 1=terrible)
   (b) Was the level of the material in the lectures about right: _____
   (10=too high; 5=just right; 1=too low)
3. (a) What were the three best lectures:
   (b) What made them the best lectures:
4. (a) What was the worst lecture:
   (b) What made it the worst lecture:
5. Did you find the "basics and review" tutorials useful: _____
   (10=very useful; 1=waste of time; N/A=did not use them)
6. Did you find the special topics sessions useful: _____
   (10=very useful; 1=waste of time; N/A=never attended them)
7. Did you find the Wednesday afternoon tours useful: _____
   (10=very useful; 1=waste of time; N/A=did not take part)
8. Did you find the data reduction exercise useful: _____
   (10=very useful; 1=waste of time; N/A=did not do it)
9. Did you find the test observations useful: _____
   (10=very useful; 1=waste of time; N/A=did not do one)
10. Where was your accommodation (circle one):
    ATCA Lodge   Albany Motel   Tommos Motor Lodge   Cabins
    Bellview   Kaputar Motel   Narrabri Motel   Other
11. What was the quality of your accommodation: _____
    (10=excellent; 1=terrible)
12. Where should the next workshop be held (pick one):
    Narrabri;   Sydney;   Other __________

Please use back of this sheet for more comments, particularly those that will help improve the next workshop.
