Synthesis Imaging Workshop Evaluation Sheet

To assist us in evaluating this workshop, and to aid the planning of the next workshop, your assistance in completing this form would be appreciated. Either place your completed questionnaire in the box in the lecture area after the workshop, or fax it to (02) 6790 4090. Alternatively fill out the on-line version at

`http://www.atnf.csiro.au/synthesis/eval.html`

Thanks in advance,
The Workshop Organisers

---

1. (a) How would you rate your prior knowledge of synthesis imaging?
   (10=expert; 1=beginner)
   (b) Approximately how many times have you observed with an interferometer?
2. (a) What was the general quality of the lectures?
   (10=excellent; 1=terrible)
   (b) Was the level of the material in the lectures about right?
   (10=too high; 5=just right; 1=too low)
3. (a) What were the three best lectures?
   (b) What made them the best lectures?
4. (a) What was the worst lecture?
   (b) What made it the worst lecture?

For Questions 5–9, please use the following scale: 10=very useful; 1=waste of time; N/A=did not participate

5. Did you find the tutorials useful?
6. Did you find the special topics sessions useful?
7. Did you find the Tuesday afternoon tour useful?
8. (a) Did you find the "observing" practical session useful?
   (b) Which "observing" session did you take part in?
9. (a) Did you find the "data reduction" practical session useful?
   (b) Which "data reduction" session did you take part in?
10. Do you have comments on the general workshop accommodation, transport and logistics?

Please use back of this sheet for more comments, particularly those that will help improve the next workshop.
