

National Facility Support Model Update

Jo Dawson | 23/10/2023

Australia's National Science Agency

Observing Support from APRS2023

- **Project-based** observing support provided by a designated **Observing Expert (OE)** with high-level knowledge of the instrument & project-specific requirements
- Unified system for **ATCA, Parkes (LBA** requires more intensive ATNF staff support still, outside of the OE system).

The Vision for the OE Role

OEs are self-nominated members of project teams OR assigned ATNF staff members

- Part of National Facility support duties for ATNF staff

OEs are trained and certified by the National Facility

Project based allocation ensures OEs have experience in the relevant modes/science

Minimum support provided by the scheme is to ensure the telescope is functioning such that it can produce science-ready data

OE role can be undertaken from any location with an internet connection.

Expectations of the OE

First point of contact for observing issues, assisting, resolving or escalating as appropriate.

Available and contactable for the duration of the team's observing

Discusses project expectations, strategies and requirements with PIs

Assists with planning, scheduling & observing start-up as required

Transfers project-specific skills to observers (i.e. advanced, mode-specific aspects not covered in general training)

Initial Rollout (APRS2023+)

Staged rollout starting with “Minimum Viable Product”

OE replaces DA/Project Expert for all ATCA/Parkes projects

OEs limited to those with existing expert-level knowledge

- Mitigate training burden while programme under development
- Teams self-nominate or request ATNF support in OPAL

ATNF OE allocation performed manually

Information gathering a key aspect of this first year

- Assess demand & resourcing implications
- Prepared to adapt in an agile way

Oct 2023 Status Summary

In place:

- ✓ OPAL functionality for OE selection
- ✓ Basic PORTAL functionality (OE registration, reminders, call forwarding...)
- ✓ Manual assigning of ATNF OEs to projects
- ✓ Documentation developed and on public-facing webpages
- ✓ Email communications to OEs and observers
- ✓ Regular surveys: OE skills survey, observer & OE feedback surveys

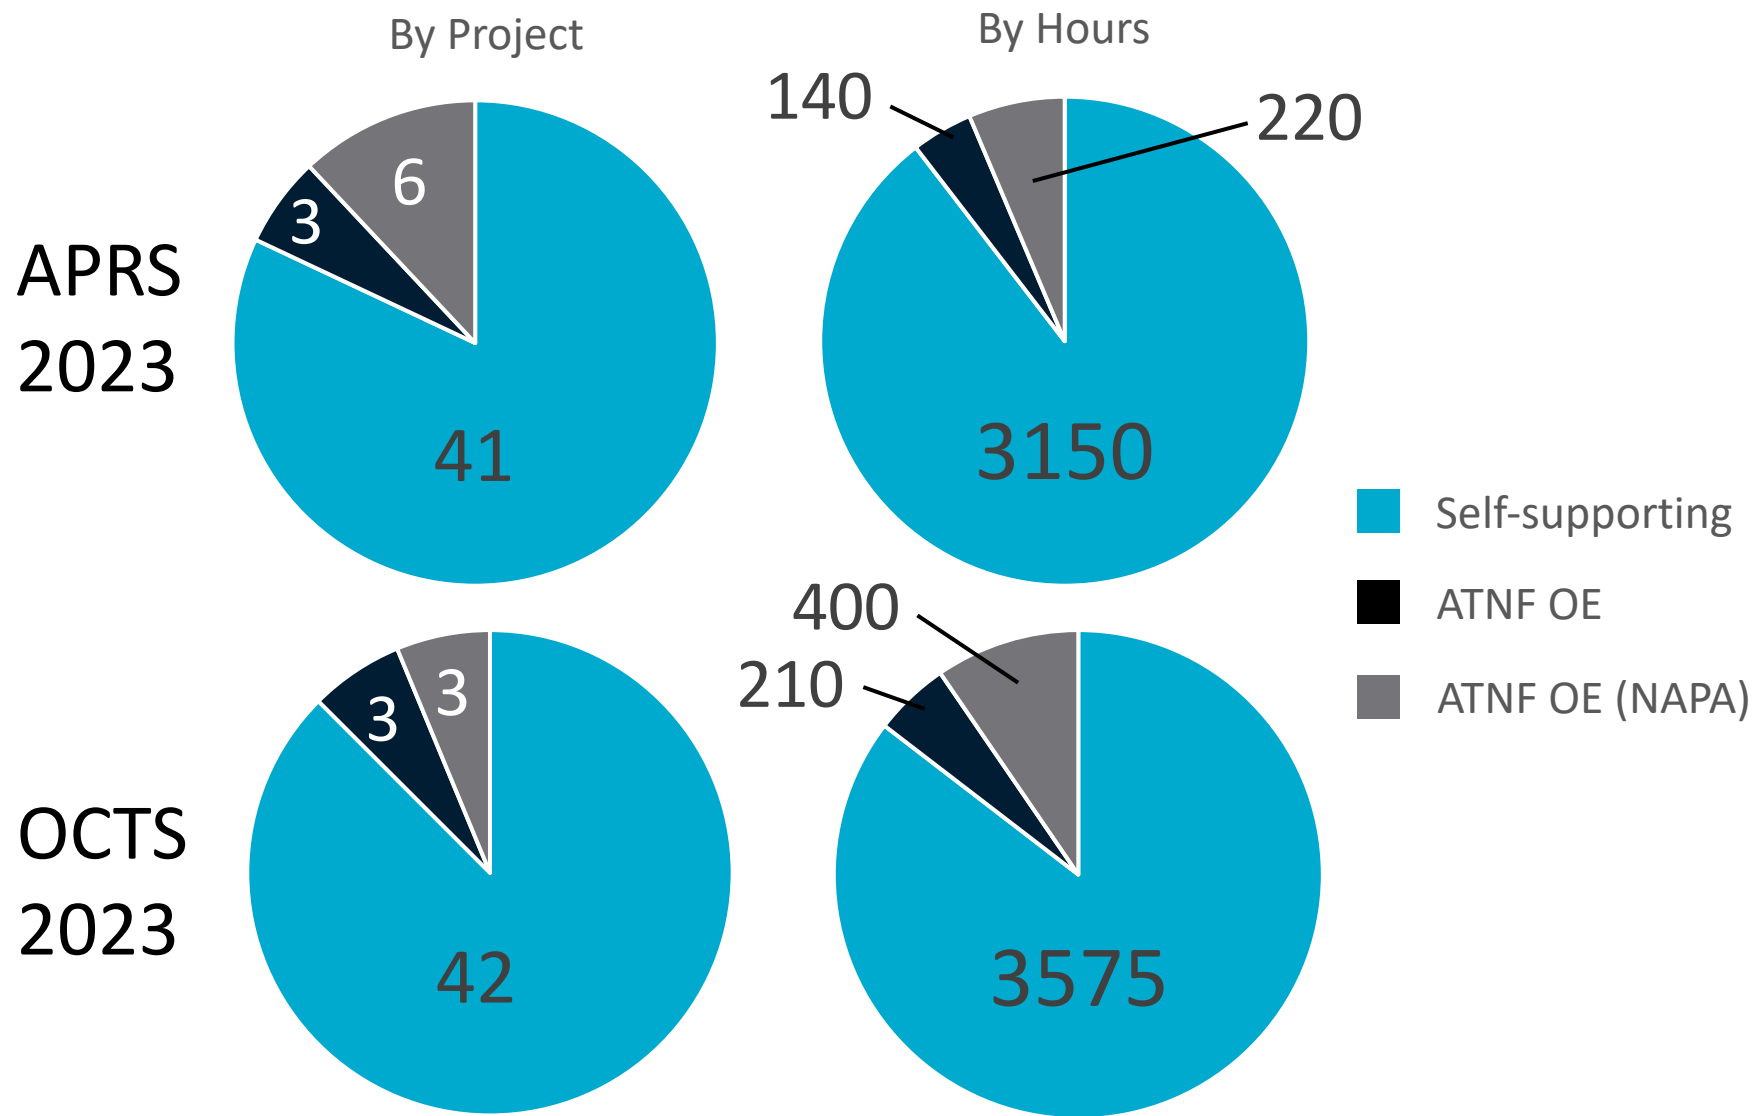

Yet to properly think about:

- How to integrate LBA properly
- Certification/training of new OEs

Requests for ATNF OEs (ATCA)

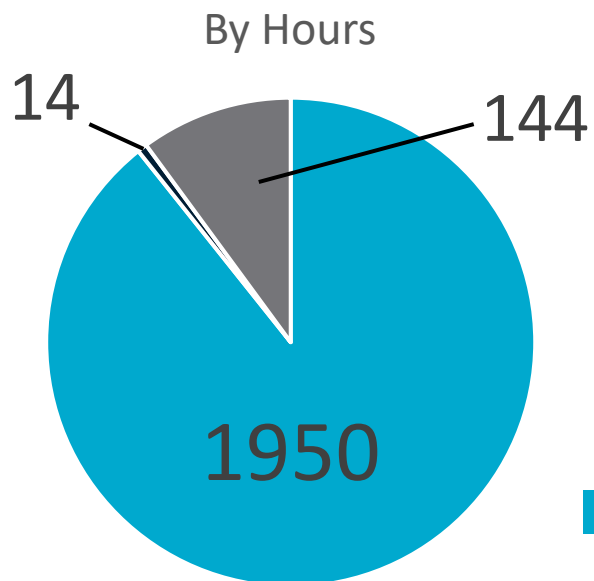

* Charts only include projects awarded time

Requests for ATNF OEs (Parke)

APRS
2023

OCTS
2023

- Self-supporting
- ATNF OE
- ATNF Paid time

* Charts only include projects awarded time

Training & Certification

Basic observer training

- Provided by observatories
- Fully online training programme under development

Advanced / mode-specific observer training

- Some provided by observatories
- Provided by OEs (expert knowledge transfer)

OE certification & training

- OE training & certification by ATNF
- Details TBD

Significant resourcing implications for investment in training programme development → allocation of FTE

Training: Current Status

Basic observer training

- **ATCA interim solution:** offline reading + video content followed by live Q&A with observatory staff
- **Parkes interim solution:** live training but aiming to match ATCA soon.
- Live sessions 2x per month in different time slots
- Required for new users, optional for previous users
- Development of online modules progressing slowly (FTE limited)

Advanced observer training

- OEs are disseminating advanced knowledge

OE Training & Certification

OE certification & training

- OEs to receive formal training & certification from ATNF
- Details TBD
- OE training pathway must allow for developing new OEs within the community

March 2023 ATUC report:

“ATNF to create a transparent training pathway/structured body of training materials for developing new OEs within the community.”

Thank you

Special thanks to S&A team who have contributed to implementation:

Stacy Mader, Vanessa Moss, Chris Phillips, Jane Kaczmarek, Jamie Stevens, John Sarkissian

Jimi Green, Minh Huynh, Phil Edwards, George Heald, George Hobbs, Rob Hollow, Aidan Hotan, Liz Mahony, Cormac Reynolds, Elaine Sadler, Nithya Thyagararajan, Matt Whiting, Ivy Wong +
