

~9:30 AKSAP noticed not to be tracking properly - restarted at ~09:38 UTC

~14:30 AKSAP noticed not to be tracking properly - restarted at 14:52:30UT. Schedule was reloaded from ftp area. unclear if any data from before then was obtained successfully.

- \* Almost certainly all data before this point was rubbish

~15:30 UT noticed disk full - recording had stopped. test data and v252ab (2011) cleared from disk to make space. recording restarted ~15:50 UT.

LO=>> 8425 MHz central frequency
