

Default tied array is 12345, reference CA02 on W104.

Due to shadowing, the following antennas were dropped from the tied array for the durations specified.

CA02: 14:00 - 16:00:46

CA04: 14:00 - 14:12:52, 14:19:56 - 16:00:46

Recording stopped (thought it was stuck and aborted) at 20:42. Had to be restarted using the local disks on cavsi1 before it worked again reliably.
