

Observers : Vasaant (first half) and Simon (second half)

Agilent : 12.2 GHz

SML01/02 : 468/810 MHz (ICRF) & 810/810 MHz (maser)

Das profile : VSOP.PRO

Disk : UTAS V002A

Hobart is not observing and any recorded data is invalid from UT03:00 - 04:05. Only antenna observing during this time is Ceduna.

Problem with the Agilent at ~18 UT. Lost front end power. Agilent doesn't seem to be responding. Stopped recording at ~19 UT, antenna parked. Need to wait for Brett to get in to investigate Agilent problem.
