

Recording fro DAS2 as problem getting cdisko to work.

Recording to pam-store

Possible recording problem: Recmon started alarming at 1442 UT, saying that we'd lost the connection to pkvsi2. Help sought. Recorder server restarted at 1532 UT, and restarted recording at 1537 UT. Unsure if data were lost from 1442-1537 UT or whether it was just a server issue.
