

Parkes started late.

Started tracking at about 22:50 UT.

Wrong polarization till 23:29:10.

Disk used xraid1 on pkvsi1. Set CURT V012-B.

Parkes has SWAPPED polarisations!!

For single polarisation need to record channels (1,2,5,6) (not 3,4,7,8 as in the other antennas).

For dual polarisation channels 1-4 are recorded and MUST be swapped at the correlator.
